CALL FOR PAPERS AND PROGRAM SUGGESTIONS

Your program committee urges all interested members and friends of the Association to submit abstracts of proposed papers and suggestions for the 1965 Annual Meeting as early as possible for our consideration. The 1965 meeting will be held at the Americana Hotel, New York City, on May 20, 21, and 22. Suggestions regarding the general format or specific program listings will be welcomed and given full consideration as soon as received.

Proposed papers should be submitted in the form of a full page abstract with complete title, names of all authors, institutional affiliations, and time required for presentation. Need for any audiovisual equipment should be specified. It is important to note that the Executive Council has decided that table clinics will not be included at the 1965 convention and that a separate film forum will not be included in the next year's program, although motion pictures might be submitted for presentation in the regular program.

Your early submission of program suggestions and abstracts of proposed papers is an important factor in the development of an excellent program. All correspondence should be addressed to Dr. Kenneth R. Bzoch, Department of Communicative Disorders, College of Health Related Services, University of Florida, Gainesville, Florida 32603.
