# Newborn Feeding and Care Kit for Cleft Lip and/or Palate Infants

*by Howard and Associates*

Add a personal touch and make the transition from the hospital to the home easier for parents of cleft lip and/or palate infants.

The purpose of this kit is to familiarize new parents with the different feeding procedures. It contains actual feeding items used by most parents of cleft infants, and a Feeding and Care Booklet. The booklet includes information relating to each item, its cost, and where to find them. It also suggests guidelines for breast and bottle feeding, and offers parents information on support groups, terminology, and other helpful resources. This information may save time and prevent confusion after leaving the hospital.

This kit can provide a good opportunity for the hospital staff, the physician, the cleft/lip palate clinics, parent support groups, or a friend to show a little extra T.L.C. (Tender Loving Care) while the parents are at the hospital or after they have gone home. Most hospitals and/or physicians instruct parents on feeding and care. This kit will help parents to follow through on what they have learned and apply it in the privacy of their own home. It will also give the parents a choice of items to try and see what method works best for them and their new baby.

## KIT CONTAINS:

- 1 Feeding and Care Booklet • 1 Mead Johnson Cleft Palate/Lip Nurser
- 2 Lamb Nipples with Fitted Ring • 2 Ross Cleft Palate Assembly Nipples
- 1 Toothette Swab • 1 - 3 Inch Dropper • 1 - 3cc Oral Syringe • Teddy Bear
- 1 Bulb 50cc Syringe with 1½ Inch Rubber Tubing • 1 Label to Personalize Your Kit

## ORDER FORM FOR NEWBORN FEEDING AND CARE KIT FOR CLEFT LIP/PALATE INFANTS

Send orders to: HOWARD and ASSOCIATES • P.O. Box 263 • Fortuna, CA 95540 • (707) 725-2987
